THE ACCURACY ADVANTAGE

Accuracy starts in the materials and craftsmanship. Marlin uses the finest materials to create the strongest receivers. And our skilled gunsmiths adhere to the tightest manufacturing tolerances to ensure outstanding results. The first time you print a group with one of our lever guns is an eye-opening experience. You're shooting precision machinery, and it shows.

MODEL 336C

MODEL 1894

MODEL 1895

OUR LEVER-ACTION LEGACY

It's the classic American long gun, a tool of history and just as much a symbol of the Old West as the six-shooter. The Marlin® brand is synonymous with lever action repeaters. It's a rich tradition, with a heritage stretching back to the Model 1881, our first centerfire, and the Model 1891, our first rimfire. In fact, Annie Oakley trusted the Model 1891 above all others to demonstrate her legendary marksmanship.

Today, hunters and sportsmen alike are still demonstrating their marksmanship with Marlin rifles, including the Model 39A, still in production today as the oldest continuously produced rifle in the world. Marlin is the first name in lever action, producing classics like our 1894 carbines, 1895 rifles and our 336 series. Each is made from premium grade steel to create the strongest lever-gun receiver ever built. The action of the lever is ultra-smooth for rapid follow-up shots. And for rock-solid reliability, heat-treated solid-steel forgings are used for the receiver and trigger guard plate. Marlin is always working to improve these timeless rifles with new technology.

Micro-Groove® Barrel

MARLIN'S EXCLUSIVE MICRO-GROOVE® TECHNOLOGY

Micro-Groove® rifling has become synonymous with rimfire accuracy. Introduced in 1953 by Marlin, the Micro-Groove® barrel continues to be revolutionary in terms of accuracy, creating a rimfire bore with many more lands and grooves than conventional rifling (see images below). This system results in less bullet distortion when fired. Less distortion plus a better gas seal lead to greater accuracy and tighter groups. Micro-Groove® rifling is only available from Marlin.
